<u>Firegirl</u> Tony Abbott 145 pages

Tom's class gets a new girl, Jessica, who challenges them to face their own prejudices. Tom has to decide if his loyalties lie with his old friend or his new one.

This book reminds me of <u>Stargirl</u>. Even though it's by a different author, the themes and narration are similar.

I would recommend this book because it gives a good and gentle reminder to resist judging people based on their appearances.
